ANFRA AND AKTO ARE LAUNCHING KIFFE TON PROJET WHICH IS PART OF THE PRE LEARNING

COMPONENT OF THE SKILLS INVESEMENT PLAN

Paris, Washington DC, 06.11.2020, 19:27 Time

USPA NEWS - After the confinement period, ANFRA and AKTO welcome the launch of their emblematic project "Kiffe ton projet" (« Love your project ») which is part of the pre-learning component of the Skills Investment Plan (PIC). "Kiffe ton projet" mobilizes nearly 70 CFA / UFA in a dozen regions including the DROMs, and aims to support 1,800 young people on a path preparing for more than 70 jobs through apprenticeship. The project is at the heart of the work-study and apprenticeship reform reactor. It engages many actors who are mobilized for the integration of young people on the royal road to learning. It is co-financed by the State - under the PIC - and managed by the Caisse des Dépôts et Consignations, which contracts with each beneficiary. The project is particularly representative and brings together territorial CFAs, company CFAs, branch CFAs and national networks with a history and a strong culture.

1 800 INFRA IV YOUNG PEOPLE ACCOMPANIED ON NATIONALWIDE

The young people targeted by the system are infra IV level, aged 15 to 29 years old and mainly from priority districts of the city policy (QPV) and rural revitalization zones (ZRR).

Eight metropolitan regions (Auvergne-Rhône-Alpes, Brittany, Grand-Est, Ile-de-France, Nouvelle-Aquitaine, Normandy, Occitanie, Pays-de-la-Loire) and three overseas (Guadeloupe, Mayotte and Reunion) are concerned. Corsica is also planned within the framework of the project.

This project also allows smaller CFAs scattered over the territory to jointly respond to a demanding call for projects. It also makes it possible to implement new collaborative practices with the objective of pooling and sustaining pre-learning pathways.

A 3 TO 5 MONTH COURSE IN A PROJECT MODULE

The course lasts at least 140 hours and is broken down into a module on key skills and interpersonal skills, supplemented by a second module on the discovery of trades and the business world. In addition, there is an internship in a company (minimum 2 weeks). The course is built on a lump sum basis of € 2,500 co-financed by the Skills Investment Plan (PIC).

The CFAs (Centers for Apprentices) involved in the project cover a broad spectrum of more than 70 professions which will be able to meet the needs, in particular, of AKTO member companies who express their needs to the OPCO services.

A REQUIREMENT OF TRACEABILITY AND FOLLOW-UP OF YOUNG PEOPLE-----

To meet this requirement, the project builders are relying on the Walt platform, which enables tracking from registration to access to the apprenticeship contract. The objective: to offer young people an individualized safe, a real personalized course, with the creation of their profile (CV, job offers, internship, etc.). To this is added the compilation of data within a dashboard to allow a qualitative and quantitative evaluation of the designed program, one of the specifications of the call for prepa-learning projects # Startetastory. The collective ambition of the project is to include a minimum of 70% of young people in preparation in an apprenticeship contract, ie nearly 1,300 young people across the territory and regions concerned.

The national steering committee was set up in January 2020. Regional technical committees make it possible to steer, with local partners, the progress of the project to be as close as possible to local issues and the needs of CFAs, young people and businesses. and more widely mobilized territories. Despite the inevitable impact of COVID and the confinement period, more than 200 courses have already been started - particularly in Reunion (CFA of the Chamber of Trades and Crafts) with already signed contracts of 'apprenticeship, particularly in the wood sector. The consortium agreement is built over a period of 30 months including 24 operational months (January 2020 - December 2021) under the project and its execution.

ABOUT AKTO: THE FIRST LOCAL SKILLS OPERATOR-----
